Do you often think of life in the future? Will we study at home? Will we have robots? Will we fly to the moon easily? Everyone may have his or her ideas about that. Life in the future will be very different from life today. Many changes will take place, but what will the changes be?

There will be changes in our food. Maybe no one will eat meat. Instead, people will eat more fruit and vegetables and stay away from junk food. Maybe

people will be healthier.

Computers will be small and useful. Maybe we will even put the computer into our pockets(口袋). There will be at least two computers in every home. And computer studies will be one of the most important subjects at school.

Work in the future will be different, too. Robots will do all the dangerous and hard work. People will work fewer hours than they do now. And they will have more free time for sports, watching TV and traveling.

根据短文内容,完成表格,每空词数不限。

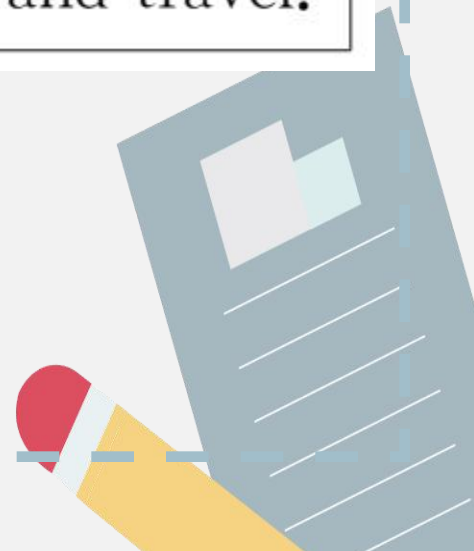

Life in the Future
